## Overview:

The Equestrian Knights Of Uma™ is an interactive training system that enhances teamwork and dramatically reveals the vital necessities of collaboration, effective communication, leadership, accelerated decision-making, problem-solving, resource allocation and management, as well as planning within the successful organization.

Time constraints, deadlines, unforeseen obstacles, and natural group dynamics anchor this simulation to the realities of the workplace.

To bring the simulation to life, it is set in the year 392 A.D. Three teams set out pursuing individual objectives. The teams quickly realize that their

unique objectives are all part of an overarching goal that will require a high degree of collaboration to accomplish. Resources, ideas, planning, and strategies must be shared in order to avoid annihilation by the Equestrian Knights of Uma.™
